

## Patient Eligibility Screening Record Vaccines for Children Program

This record must be kept in the healthcare provider's office to reflect the current status of all children 18 years of age or younger declared eligible to receive immunizations through the VFC program. The record may be completed by the parent, guardian, individual of record, or by the healthcare provider. This same record may be used for all subsequent visits as long as the child's VFC eligibility status has not changed. Provider verification of responses is not required, but it is necessary to retain this record on file for a minimum of three years.
